

PEDAL COVER SET

(2021-2022+ BRONCO)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Throttle Pedal Cover
(1) Brake Pedal Cover

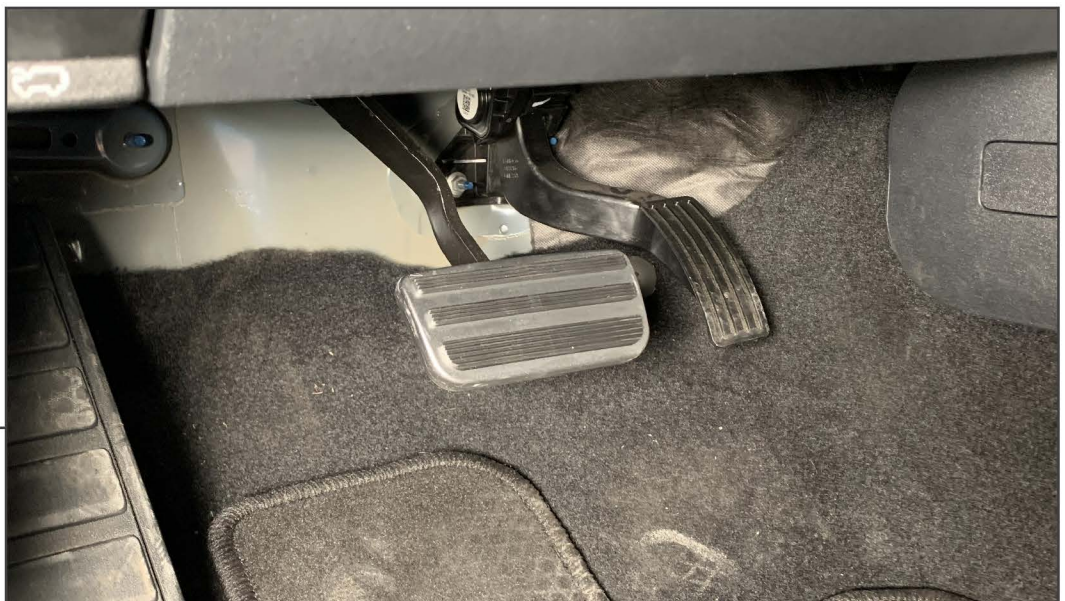

TOOLS REQUIRED

Heat Gun/Hot Water (Optional)
Interior Detailer
Microfiber Cloth

STEP 1

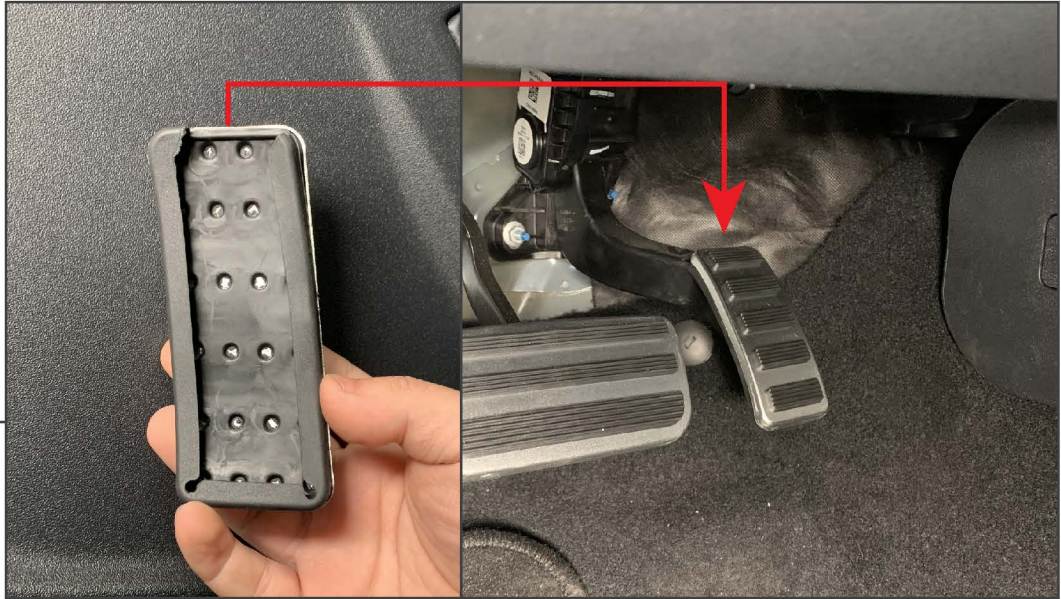

Remove the rubber cover from the vehicle brake pedal by peeling the sides upwards.

Clean the brake pedal and throttle pedal using interior detailer and a microfiber cloth.

STEP 2

Wrap the outer corners and sides of the brake pedal cover around the metal vehicle brake pedal.

Note: If necessary, warm the rubber on the cover using a heat gun/soaking in hot water. This will allow additional flexibility in the rubber to assist the installation.

STEP 3

Locate the front of the throttle pedal cover by identifying the cutout as indicated. Wrap the outer corners and sides of the throttle pedal cover around the plastic throttle pedal.

Note: If necessary, warm the rubber on the cover using a heat gun/soaking in hot water. This will allow additional flexibility in the rubber to assist the installation.

STEP 4

Installation is now complete.
